CTS now supplies tight tolerance solid carbide parts manufactured to your specifications utilizing advanced CNC machining technology.

**Custom Solid Carbide**
- Exact Replacements for OEM Parts
- Parts can be Redesigned as an Assembly with Replaceable Inserts, or with a Steel Core (ex. Stepcones).

**Superior Wear Resistance**
- 10 to 15 X Wear Life of Heat-Treated, or Induction Hardened Tool Steel Parts
- High Tensile Strength
- Durable

**Part Applications**
- Descaler Rolls and Inserts
- Forming Rolls
- Guide Rolls
- Stepcones
- Straightening Rolls
- Wire Guides

**Benefits**
- Superior Wear and Corrosion Resistance
- Reduced Downtime
- Eliminates Frequent Changeovers
